- Collaborated within the technical team to contribute to real-world software and web development projects in a professional working environment.

Data Science Trainee - Digital Egypt Pioneers Initiative (DEPI) Dec 2025 – July 2026

- Currently enrolled in the Microsoft Data Engineer track, Gaining hands-on experience in data engineering concepts including data modeling, ETL processes, data pipelines, and working with Microsoft data platforms and cloud technologies.

ECPC Community - Helwan National University Jan 2025 – Aug 2025

- Received training in algorithms, problem-solving, and data structures. Practiced problem-solving using platforms.

Experience

Tech Team Member – Leadership development Institute – Ministry of Higher Education Jan 2026 – Present

- Collaborating as part of the technical team on real-world digital solutions, contributing to web development, system design and implementation of scalable features in a professional institutional environment.

Customer Service Representative – Concentrix (Verizon Account) June 2025 – Oct 2025

- Handled customer inquiries, resolved issues efficiently, and maintained high customer satisfaction.

Senior mentor at Royal Tot's camp 2023 – 2024

- Led and supervised children's activities, ensuring a safe, engaging, and supportive environment.

Technical Skills:

Programming Languages:

- Python • Java • C • C++ • JavaScript • SQL

Frontend:

- HTML • CSS • React

Backend:

- Java Backend Development • Spring Boot

Tools & Software:

- IntelliJ IDEA • VS Code • Antigravity • CLion • PyCharm • CodeBlocks • SSMS

Version Control:

- Git & GitHub

Languages:

- English (C1 – Full Professional Proficiency)
- German (A2)

Voluntary Work:

Vice Head, Art Committee – Faculty Student Union 2026 – Present

Supported and co-led the Art Committee, overseeing team coordination, event planning, and smooth execution of activities.

Faculty Co-Head of leaders for level 2 2025 – Present
